

"Making learning a breeze" > EDUCATIONAL CENTRES

Fonestar provides educational centres with student-teacher communication systems that guarantee compliance with safety distance standards without compromising communication quality.

Featuring our portable "ALTA-VOZ" amplifiers for teaching from a greater distance, allowing sound output regulation and minimising the throat pathologies associated with vocal strain on the part of the teaching staff.

Fonestar provides the best solutions for PA systems in educational centres.

"To your health"

FONESTAR for safe communication.
