

“Security and Openness” > HOSTELRY - TERRACES

Fonestar makes it possible for you to equip your hotel and catering facilities by providing quality remote communication in compliance with safety standards (We feel safer and consume more when we are in open spaces):

- Terrace, lounge and dining area sound systems providing background music.
- We outfit terraces, providing sound for televised sporting events.
- We offer better communication between kitchen and lounge or dining area staff with efficient and safe intercom systems.

FONESTAR
