BLOCK

BLOCK is a minimalist speaker with high-quality components and a robust construction that integrates seamlessly with all types of furnishings.

Powerful, distortion-free sound with a bass-reflex enclosure for bass-frequency boosting that delivers great sound quality.

It includes a simple wall mounting system that can be installed both vertically and horizontally.

The magnetic grille is easily removable and allows you to choose the look that best fits into the space where it will be integrated.

· 1x 5” high resistance woofer with ferrite magnet

· 1x 1” silk dome tweeter with neodymium magnet

60 + 60 W RMS

VINYL-13

Turntables to enjoy the excellence of the analog sound of vinyl, with a careful design that integrates into any space and with any furnishings.

Recover your precious vinyl collection and enjoy the unique sensations that vinyl offers, with all its ambience and subtlety, integrating it into your Hi-Fi audio system.

- Straight arm with anti-skating control
- Aluminium plate
- A precision DC servo motor with quick start/stop and auto standby function
- Phono/line selector
- Pitch adjustment

VINYL-25AMP

All-in-one turntables incorporating amplifier and speakers, USB/MP3 player/recorder, aux input and headphone output with auto-stop function. To enjoy your vinyl collection without the need for other equipment.

Also offers you the possibility of integrating it with your existing music system using the line-level output.

- Speakers: 2 x 2 3⁄4” woofer
- 3 + 3 W RMS
- Line level output
- Headphone output
- Aux input

Create unique audio experiences for all your projects with the guaranteed support of our professionals.

Add sound to your life.
